WORK EXPERIENCE

Accenture   **Toronto, ON**
Front End Development Senior Analyst   *December 2022 – Present*

- Implemented advanced front-end features using **Next.js** and **React**, including integration of Okta SSO **authentication,** enhancing user security and access control. Integrated Looker dashboards leveraging looker embed SDK for data driven visualizations.
- Conducted thorough code reviews of onshore and offshore developers, provided constructive feedback, made sure only high-quality code is added to the codebase. Created effective branching strategy, ensuring efficient collaboration and version control within the team. Collaborated across project with product, backend, DevOps, QA and design teams.
- Engaged actively with client and project stakeholders, for bug resolution in production and lower environments.
- **Tech Stack**: Next.js, React, Jest, Tailwind CSS, GCP, Firebase, Okta OAuth, GitHub, ADO

Accenture   **Toronto, ON**
Front End Development Analyst   *September 2021 – November 2022*

- Developed a custom front end solution using Next.js React, TypeScript, and Tailwind CSS for an alert service portal that sends out emails and messages to customers based on their configurations.
- Integrated APIs with customer facing application for performing CRUD operations.
- Presented client facing demos of the working software to product teams and executive IT stakeholders. Collaborated with design, backend, security, and product team across the project.
- **Tech Stack**: Next.js, React, TypeScript, Tailwind CSS, GitHub, Vercel, Jest, GitHub, JIRA

Invest Ottawa   **Ottawa, ON**
Web Developer   *January 2021 – June 2021*

- Designed and developed over **25+** company **websites** in 6 months, maximizing **user experience** and search engine optimization (**SEO**).
- Analyzed architectural problems and proposed solutions to meet them effectively, **integrated third-party applications** to support **user needs**, improved existing features through user and **team-feedback.**
- Implemented goals alongside graphic designer, copywriter and digital marketers that resulted in 100% client satisfaction and increased ecommerce sales.
- **Leveraged Knowledge** in HTML, CSS, JavaScript, WordPress, Shopify, and Square.

LEADERSHIP EXPERIENCE

Accenture   **Toronto, ON**
Lead Developer   *January 2022 – Present*

- Played a pivotal role in guiding and mentoring junior developers, conducting knowledge transfer sessions, and facilitating the seamless onboarding of new team members, resulting in highly skilled and cohesive project teams.

Invest Ottawa   **Ottawa, ON**
Team Lead   *January 2021 – June 2021*

- Led a 5-person team (graphic designer, web developer, copywriter, and two digital marketers) for 25+ client projects, providing mentorship, establishing strong relationships, managing projects, translating business requirements into technical solutions, leading weekly client presentations, and conducting daily standup meetings.

PROJECTS

Accenture   **Toronto, ON**
Full Stack Developer – Planted App   *April 2017 – Present*

- Engineered a comprehensive full-stack application for plant enthusiasts, enabling them to track their plants, organize nooks, and receive water reminders. Integrated APIs for enhanced functionality, while the tech stack included React, JavaScript, Node.js, GraphQL, Styled components, PostgreSQL, and project management via JIRA.

Syntronic   **Ottawa, ON**
Full Stack Developer – Visitor Management System   *April 2017 – Present*

- Collaborated closely with project members using **Agile** methodology to **design** and **develop** a visitor management solution which replaces paper-based systems by **100%** and allows admins to better manage visitor, improve building **security** and employee **safety**.
