WORK EXPERIENCE

Accenture

Frontend Lead

Toronto, ON

December 2023 – Present

- Led the development and implementation of a full-stack solution, utilizing Next.js, React, TypeScript, and Nest.js for a robust and efficient application designed to be used by millions for calculating employment insurance benefits.
- Developed front-end features in Next.js and created APIs in Nest.js, ensuring seamless integration and high performance. Wrote comprehensive unit tests using Jest to ensure code quality and maintainability, contributing to a robust and reliable application.
- Leveraged Docker and Azure DevOps for containerization and streamlined CI/CD processes, ensuring consistent and reliable deployment across various environments.
- **Tech Stack:** Next.js, React, TypeScript, Nest.js, Node.js Tailwind CSS, Azure, Jest, Docker

Accenture

Senior Frontend Developer

Toronto, ON

December 2022 – November 2023

- Implemented advanced front-end features using **Next.js** and **React**, including integration of Okta SSO **authentication**, enhancing user security and access control. Integrated Looker dashboards leveraging looker embed SDK for data driven visualizations.
- Conducted thorough code reviews of onshore and offshore developers, provided constructive feedback, made sure only high-quality code is added to the codebase. Created effective branching strategy, ensuring efficient collaboration and version control within the team. Collaborated across project with product, backend, DevOps, QA and design teams.
- Engaged actively with client and project stakeholders, for bug resolution in production and lower environments.
- **Tech Stack:** Next.js, React, Jest, Tailwind CSS, GCP, Firebase, Okta OAuth, GitHub, ADO

Accenture

Frontend Developer

Toronto, ON

September 2021 – November 2022

- Developed a custom front end solution using Next.js React, TypeScript, and Tailwind CSS for an alert service portal that sends out emails and messages to customers based on their configurations.
- Integrated APIs with customer facing applications for performing CRUD operations.
- Presented client facing demos of the working software to product teams and executive IT stakeholders. Collaborated with design, backend, security, and product team across the project.
- **Tech Stack:** Next.js, React, TypeScript, Tailwind CSS, GitHub, Vercel, Jest, GitHub, JIRA

Invest Ottawa

Web Developer

Ottawa, ON

January 2021 – June 2021

- Designed and developed over **25+** company **websites** in 6 months, maximizing **user experience** and search engine optimization (**SEO**).
- Analyzed architectural problems and proposed solutions to meet them effectively, **integrated third-party applications** to support **user needs**, improved existing features through user and **team-feedback**.
